

FLORIDA CHURCH of GOD MINISTRIES in PARTNERSHIP with INDIA/BANGLADESH LEADERS

OUR MISSION STATEMENT:

“To establish the Kingdom of God in all its fullness in reached and under-reached people groups through interdependent partnerships.”

OUR VISION:

“To train lay leaders and evangelists, in a ‘Tent Making Ministry’, equipping them with a focus on holistic ministry, meeting the needs of the people; spiritual, physical and socio-emotional.”

OUR PARTNERSHIP:

National leaders, pastors and churches in the interior and untouched areas of the vast geographical area of North India and Western Bangladesh. Because of those that we have partnered with and to protect them from persecution we can not give additional information of their names or location.

OUR SHARED GOAL:

‘Every Church must become a community transforming Church’. Practically each of our newly planted churches starts as a ‘Seekers’ Bible Study Group’ and then turn into a ‘Fellowship Group’. Later the ‘Fellowship Group’ turns into ‘Worship Group’. Our understanding of the Church is that the Church is not for Christians only but for the community. Moreover, we want every ‘Worship Group’ must become a ‘Community Transforming Church’. However we do understand that the word transformation is a process and the process starts with ‘Identification’ of the community to be transformed – ‘Involvement’ in the community – ‘Influence’ the community – thereby ‘Impact’ the community. We believe a Church that impacts her community would easily bring transformation to that community. Hence, the skills & strategies to bring about that impact & thereby transform the community were taught.
